

**To: U.S. Senate  
July 6, 2006**

The Citizens for Space Exploration (CSE) - a grassroots advocacy group of taxpayer citizens, supports NASA and the Vision for Space Exploration. We endorse and urge your support of bi-partisan efforts by Senators Mikulski and Hutchison to provide emergency supplemental funds reimbursing NASA for bills incurred by the loss of Columbia and damage from Hurricane Katrina. Funding for NASA and space exploration advances America's scientific, technological, security and economic interests. For more information about CSE go to:
